About Us

Since 1979, Solar CNC Automation is into business operation, offering the highly productive range of machines for various industrial purposes. We are counted among the key Manufacturer, Exporter, Wholesaler and Supplier of the high technology CNC as well as Special Purposes Machines. Our conglomerate of products includes CNC Machine, Special Purpose Machine, CNC Light Milling Machines, CNC Engraving Machine, CNC Router, etc. for varied applications. With a sound production unit, we have been designing the best gamut for excellent engraving, drilling, light milling, wood working, and so many other applications. Our team of experts has achieved expertise in offering the range as per the needs of the clients in terms of size, design, etc.

We are empowered with a huge warehouse that enables us to keep goods in a large amount and meet the bulk needs of our clients in the minimum lead time. Further, we have been adhering to a strict quality management system to keep a strict vigil on every parameter of the business activity. We have been facilitate our valuable clients with the flexible payment modes such as D/A, Cash, D/P, Cheque, Invoice, DD, Online as well as Wire Transfer to smoothly regulate process of fiscal dealings. Owing to impeccable quality standards of our products, easy payment options and ethical business policies, we have been able to develop long term relation with varied renowned companies.

Infrastructure

We have a fully fledged infrastructural base designed as per the modern architect over 711 square meters area. Our infrastructural base aids us in the development of the best quality products like CNC, CNC Milling Machine, CNC Vertical Milling Machine as well as Special Purposes Machines. It comprises manufacturing unit, research & development department, quality control management wing, warehousing & packaging unit so that all business tasks can be carried out smoothly in a coordinated way. We always update the production machines from time to time to implement something innovative in the product range. Our team of engineers, technicians and other allied workers helps us to design an unmatched range for better productivity and low maintenance.

Our Products

Multi Spindle CNC Router

CNC Wood Carving Machine

Wood Pattern Router

5 axis CNC Router

CNC Pattern Router

Industrial CNC Pattern Router

CNC Pattern Router Machine

CNC Router Machine

CNC Stone Router

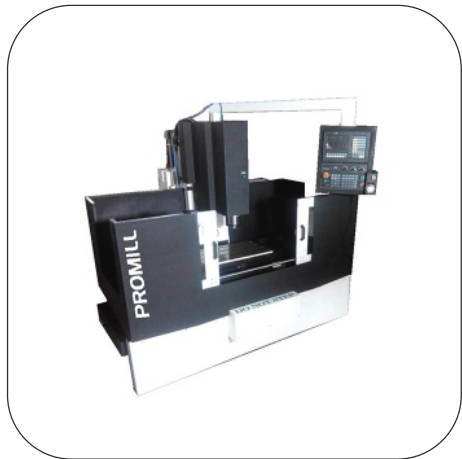

CNC Router

CNC Wood Router

CNC 4 Axis Router

CNC Milling

ProMill 850 CNC Milling Machine

ProMill 1060 CNC Milling Machine

Teach Mill CNC Trainer Milling Machine

ProMill 640 CNC Milling Machine

Center 3Axis Vertical CNC Machining
